To whom it may concern, I have recently become aware of a petition, specifically petition 04-160 put forth by the NAB, that would limit the local content I receive from my XM satellite radio service. Local weather and traffic is broadcast continuously with XM service. Local radio stations update the weather and traffic every 30 minutes during rush hour, every hour or so during the work day, and not at all on weekends. I travel a great deal for my job and knowing of traffic and weather problems are an immense help for me. Losing this service would cost me time and money. I strongly urge you to allow XM to continue broadcasting the local weather and traffic services.

Best regards,
Kevin Horsley
